CHAIRMAN'S STATEMENT

Sale of Mozambique Jatropha plantations

The Agreement for the sale of the Group's Jatropha plantation business in Mozambique was first announced in November 2009. Subsequently the Company has reported that the final tranche of US\$1.9 million receivable from the sale was contingent upon the issuance of the Jatropha farming rights for the second plantation area by 9 May 2011. The parties who purchased the plantation from the Group did not co-operate in applying for the land rights issuance as they were required to do and had agreed to do.

As previously reported the Group has commenced litigation to seek redress from the purchasers through the Mozambique courts. In the absence of the purchasers or their advisors at Court hearings and their failure to disclose their actions and/or inactions, the court has now upheld ESV's position by instructing the Company to obtain confirming information from the Mozambique land authorities for presentation to the Court. The Company is now awaiting this information.

From the final amount receivable, payment of US\$0.25 million is to be made to the former holders of the land.

Grain trading

The Group is not considering resuming grain trading in the current uncertain market conditions.

Ukraine agri-logistics

As previously reported, the Ukraine parliament approved the lifting of export duties with effect from 22 October 2011 and income for Dnipro Cargo at the port of Kherson in Ukraine re-commenced on 2 December 2011. The latest official Ukraine Grain Association estimate of 2011-2012 grain production is 56.7 million tonnes with exports of 22.3 million tonnes.

However sharply increased grain prices due to world shortages of agricultural production and unfavourable weather in major grain-exporting countries especially the United States caused a diminution in grain exports from Ukraine during the latter part of the period under review. Ukrainian farmers have been reluctant to sign contracts while there is a possibility of still higher prices.

Since the resumption of shipping grain exports in 2011, Kherson has been subject to increased competition from other Black Sea ports.

Additionally, in early 2012, some major clients who had been expected to ship through Kherson were unable to complete their planned loading operations. In one case, substantial wheat tonnages due to be transported to the port via Russian railways had to be diverted due to increased transit tariffs in that country. Another ESV client was acquired by a third party during the period, resulting in its Ukrainian operations being restricted.

As a result of the foregoing, following the resumption of exports from Ukraine after 2 December, ESV's total shipments during the 2011/12 season consisted of mainly "niche market" products (e.g. corn gluten feed pellets) shipped in smaller vessels.

Consequently traffic through the Kherson port was reduced to a total of 17,847 tonnes in the period from December 2011 to March 2012 inclusive.

Outlook for 2012-2013

For 2012-2013, the Ukraine Grain Association estimates that grain exports will be some 10% lower than 2011/2012 at 20 million tonnes.

The Ukrainian Minister of Agricultural Policy and Food, Mykola Prysiashniuk, stated that due to increased global grain prices external customers had largely suspended purchases in the month of July 2012 in order to analyse the market position but he expected exports to recover. The Black Sea region accounts for more than 20% of the world's annual wheat exports of 140 million tonnes of wheat.

It is the Board's expectation that conditions will improve during the remainder of the 2012-2013 season and it expects the Company to handle at least 60,000MT of corn and 60,000MT of other grain exports in the fiscal year ahead.

The Company is continuing its negotiations with strategic partners to further equip and expand the grain handling and storage facilities at Kherson. It has been aided in this regard by the passing of a new law on Seaports in Ukraine by the Ukrainian parliament in May 2012, which is expected to be implemented on 13 June 2013. This expressly permits private enterprises to carry out business activity alongside state-owned ports. There are interim provisions and where, as in the case of Dnipro Cargo, existing arrangements between state and private ports exist they will remain valid.

World food shortages are forecast as a result of increasing populations and demands for better dietary standards in emerging economies, in addition to the response to production output reductions. Our operations are well-positioned to service the traditional grain and seed markets.

Cost controls

The Group continues to monitor carefully and where possible reduce costs and commitments in order to operate its businesses within the financial resources available.

Going concern

The Company has created a solid platform in terms of its Ukraine agri-logistics business. In order to maintain its operations and pursue new opportunities, the Company will need to raise finance. Nevertheless, the Directors anticipate that, as historically, the Company's financial needs will be met as they arise.

Results for the year

The Group loss for the year amounts to GBP314,026 compared with GBP468,630 for the prior year. The turnover represents the fee of GBP12,598 (2011: nil) for the management of the grain terminal in Kherson Sea Port.

Future developments

The Directors of ESV are identifying new opportunities, both inside and outside its current Ukraine base, which the Company intends to pursue.

Firstly, the Company is continuing to monitor closely developments in the agricultural sectors in Ukraine and other strategic areas. It intends to leverage and monetise its expertise gained in Ukraine and develop its widespread contacts with African countries in particular.

It is assembling an international team of consultants in agro-economics to take advantage of the rapidly-expanding requirement for dairy, cereal and bio-fuel production. For instance in Zambia, where there is availability of good land and an

ESV Group Plc

excellent dependable climate, the Company is actively investigating the potential for import substitution of a range of high-value crops.

The world is currently undergoing food shortages which are forecast to continue in the years ahead. The OECD-FAO Agricultural Outlook 2010-2019 Report estimates a steady rise of 1.1% per annum in global population numbers and that this will require a 70% increase in world food production by 2050.

There is therefore a significant opportunity for ESV to utilise its knowledge, experience and contacts in the Ukraine and other strategic areas to develop and expand its agricultural interests.

Secondly, ESV has progressed its existing Memorandum of Understanding ("MOU") with a Sichuan, People's Republic of China ("PRC") based developer of a silica-based organic fertiliser, through meetings in both the PRC and the UK. The fertiliser, applicable to soils in desert and near-desert areas, uses layered porous silicate, a nanometre interlayer and high polymerising technology. It can alter and improve the structure of desert land and create conditions for a positive cycle of water, fertiliser and vegetation growth. The material has been used successfully in the PRC for the last 12 years.

Bringing desert areas into agricultural production is a key objective of many emerging countries and of the product. Under the MOU, ESV is projected to have a majority share in a dedicated Joint Venture that is planning to conduct trials in Tunisia, Jordan, UAE, Israel, Zambia, Mozambique and South Africa with a view to marketing the product internationally.

Annual General Meeting

Resolutions will be proposed at the Annual General Meeting as set out in the formal notice on pages 41 to 42. The following explanatory notes relate to Resolutions numbered 3 and 4 which will constitute Special Business.

- (1) Resolution 3 - Resolution 3 is proposed as an Ordinary resolution to provide the Directors with authority to issue ordinary shares.
- (2) Resolution 4 - is to authorise the Directors to allot relevant securities up to a nominal value of £10 million. This will provide the Directors with the authority to issue ordinary shares for cash when the Board considers it to be in the best interest of shareholders.

Supplier payment policy

The Company's policy is to settle terms of payment with suppliers when agreeing the terms of each transaction, ensure that suppliers are made aware of the terms of payment and abide by the terms of payment. Trade creditors of the Company at 31 March 2012 were equivalent to 183 (2011: 232) days' purchases, based on the average daily amount invoiced by suppliers during the year.

Financial instruments

Details of the risk management and the use of financial instruments by the Company are contained in Note 17 of the financial statements.

Charitable and political contributions

During the year, the Company did not make any charitable or political donations.

Principal risks and uncertainties

The Group is subject to various risks relating to political, economic, legal, industry and financial conditions, not all of which are within its control. The Group identifies and monitors the key risks and uncertainties affecting the Group and runs its business in a way that minimises the impact of such risks where possible. The following risks factors, which are not exhaustive, are particularly relevant to the Group's business activities:

Strategic risk

Strategic risk, is the risk that the strategy developed will fail to create or preserve shareholder value. The Directors regularly review the Group's progress against its chosen strategy, the appropriateness of the chosen strategy for the Group both in absolute terms and in comparison to other potential strategies that could be adopted.

Political risk

The Group's operational activities are located in emerging economies and are dependent on the political and economic situation in these areas. There can be no assurance that political stability will continue. Whilst the Group intends to make every effort to ensure that the Group has and continues to have robust commercial agreements covering its activities, there is a risk that the Group's activities and financial performance will be adversely impacted by economic and political factors such as exchange rates, interest rates, inflation rates, the imposition of additional taxes and charges, introduction of export quotas or bans which would reduce the demand for agri-logistics, cancellation or suspension of licences or agreements, expropriation, war, terrorism, insurrection and changes to laws governing the Group's operations.

The Group's management and advisory network have considerable international as well as local experience in conducting business in the areas where it operates and apply this knowledge to regularly assess and monitor this aspect of activities. Additionally the Group uses local experts in order to ensure compliance with the relevant regulation and maintains regular contact with the local authorities in the areas where it operates so as to be aware of any relevant changes to the fiscal regime in which it operates.

Economic risk

Emerging market economies are largely dependent on sale proceeds from primary commodity production which are subject to fluctuations in world commodity prices. In general, such economies have also experienced devaluations, high inflation and high interest rates. Additionally all these economic risks may from time to time adversely

ESV Group Plc

affect the Group's operations. Historically, commodity prices (including agricultural products) have displayed wide ranges and are affected by the numerous factors over which the Group does not have any control. These include world production levels, international economic trends, expectations for inflation, speculative activity, consumption patterns and global or regional political events.

Legal risk

The legal systems in Ukraine and Mozambique are different to that of the UK. This could result in risks such as: (i) potential difficulties in obtaining effective legal redress in the courts of such jurisdictions, whether in respect of a breach of law or regulation, or in an ownership dispute; (ii) a higher degree of discretion on the part of governmental authorities; (iii) the lack of judicial or administrative guidance on interpreting applicable rules and regulations; (iv) inconsistencies or conflicts between and within various laws, regulation, decrees, orders and resolutions; and (v) relative inexperience of the judiciary and courts in such matters.

In certain jurisdictions the commitment of local business people, government officials and agencies and the judicial system to abide by legal requirements and negotiated agreements may be more uncertain. In particular, agreements in place may be susceptible to revision or cancellation and legal redress may be uncertain or delayed. There can be no assurance that joint ventures, licences, licence applications or other legal arrangements will not be adversely affected by the actions of government authorities or others and the effectiveness of and enforcement of such arrangements in these jurisdictions cannot be assured.

Operational risk

The Group may be affected by risks arising from mechanical accidents, occupational health hazards, processing problems and technical failures. The impact of these events could lead to disruptions in business operations, loss of reputation and financial losses. The Group seeks to manage these risks by ensuring compliance with relevant standards such as health and safety standards, recruitment of appropriately qualified and experienced personnel, and appropriate training of staff and contractors.

Environmental risk

Adverse weather conditions could curtail grain production, which may result in export restrictions, and therefore reduce the usage of port facilities and the demand for agri-logistics, which could materially impact the financial performance of the Group. The board regularly reviews forecast grain production and expected demand for its agri-logistics, so to the extent possible action can be taken at an early stage to mitigate the financial impact of reduced port useage as well as to be in a position to take advantage of any increased useage as appropriate.

Dependency on key personnel

The loss of any key individuals in the Group's management team or the inability to attract appropriate personnel could impact the Group's performance. Although the Company has entered into contractual arrangements to secure the services of its Directors and other key personnel, the retention of these services and the future costs cannot be guaranteed.

Liquidity risk

There is risk that Group will not be able to meet liabilities as they fall due. The Group made a loss for the year of £314,026 (2011: £468,630) and has net current liabilities of £148,072 (2011: £144,438 - assets). The Group aims to ensure that it will always have sufficient funding to meet its expected liabilities as they fall due for at least the next 12 months. Depending on the operating performance the Group may need to raise further funding in order to be in a position to meet its liabilities as they fall due, however due to the limited operating history of the Group, there is no guarantee that the Group will be able to raise the required funds to meet its liabilities as they fall due. The Group's funding requirements are reviewed on a regular basis by the directors, such that action can be taken as necessary to either curtail expenditures and / or raise additional funds from available sources including asset sales and the issuance of debt or equity

Acquisition risk

There is the risk that the Group will not be able to acquire the necessary resources at the required price. Not being able to acquire a potential project on the desired terms may have an adverse affect on the future success of the Group. The Group and its advisors have considerable experience in the business environment in which the Group operates. This experience is applied regularly and carefully to assess potential acquisition opportunities.

Disabled employees

Applications for employment by disabled persons are always fully considered, bearing in mind the aptitudes of the applicant concerned. In the event of members of staff becoming disabled every effort is made to ensure that their employment with the Group continues and that appropriate training is arranged. It is the policy of the Group that the training/career development and promotion of disabled persons should, as far possible, be indential to that of other employees.

Employee consultation

The Group places considerable value on the involvement of its employees and has continued to keep them informed on matters affecting them as employees and on the various factors affecting the performance of the Group. This is achieved through formal and informal meetings.

Environmental matters

Regular review is carried out to ensure that our activities operate within safe environmental conditions.

Events after the reporting date

The relevant information can be found in Note 20.

Statement as to disclosure of information to the auditors

Each of the Directors at the date of approval of this annual report confirms that:

- so far as each Director is aware, there is no relevant audit information of which the Company's auditors are unaware; and
- each Director has taken all steps that he ought to have taken as a director in

ESV Group Plc

order to make himself aware of any relevant audit information and to establish that the Company's auditors are aware of that information.

This information is given and should be interpreted in accordance with the provisions of S418 of the Companies Act 2006.

Auditors

W H Associates LLP have expressed their willingness to continue in office as auditors. A resolution proposing the appointment of W H Associates LLP will be put to the shareholders at the forthcoming Annual General Meeting.

This Directors' Report comprising pages 6 to 11 has been approved by the Board of Directors and signed on behalf of the Board by

STATEMENT OF DIRECTORS' RESPONSIBILITIES

The Directors are responsible for preparing the Directors' Report and the financial statements in accordance with applicable law and regulations.

Company law requires the Directors to prepare Group and Company financial statements for each financial year. The Directors have elected under company law to prepare Group financial statements in accordance with International Financial Reporting Standards ('IFRS') as adopted by the European Union ('EU') and have elected under company law to prepare the Company financial statements in accordance with IFRS as adopted by the EU.

The financial statements are required by law and IFRS adopted by the EU to present fairly the financial position of the Group and the Company and the financial performance of the Group. The Companies Act 2006 provides in relation to such financial statements that references in the relevant part of that Act to financial statements giving a true and fair view are references to their achieving a fair presentation.

Under company law the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Group and the Company and of the profit or loss of the Group for that period.

In preparing the Group and Company financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether they have been prepared in accordance with IFRSs adopted by the EU;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Group and the Company will continue in business.

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Group's and the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Group and the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Group and the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The Directors are responsible for the maintenance and integrity of the corporate and financial information included on the Company's website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF ESV GROUP PLC

We have audited the group and parent company financial statements ("the financial statements") on pages 15 to 40. The financial reporting framework that has been applied in their preparation is applicable law and International Financial Reporting Standards (IFRSs) as adopted by the European Union and, as regards the parent company financial statements, as applied in accordance with the provisions of the Companies Act 2006.

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of directors and auditor

As more fully explained in the Directors' Responsibilities Statement set out on page 12, the Directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's (APB's) Ethical Standards for Auditors.

Scope of the audit of the financial statements

A description of the scope of an audit of financial statements is provided on the APB's website at www.frc.org.uk/apb/scope/private.cfm.

Opinion on financial statements

In our opinion

- > the financial statements give a true and fair view of the state of the group's and the parent's affairs as at 31 March 2012 and of the group's loss for the year then ended;
- > the group financial statements have been properly prepared in accordance with IFRSs as adopted by the European Union;
- > the parent financial statements have been properly prepared in accordance with IFRSs as adopted by the European Union and as applied in accordance with the Companies Act 2006; and
- > the financial statements have been prepared in accordance with the requirements of the Companies Act 2006.

Emphasis of Matter – going concern

In forming our opinion on the financial statements, which is not qualified, we have considered the adequacy of the disclosure made in Note 1 to the financial statements concerning the Group and Company's ability to continue as a going concern.

The group has net liabilities of £148,072, including £1,188,244 receivable from sale of Mozambique assets, and £219,367 due from the Dnipro Cargo terminal. The short and long term operating cash flows are affected by the uncertainty of the recoverability of these amounts.

The above factors along with the other matters explained in Notes 1 and 4 to the financial statements, may cast significant doubt about the Group and Company's ability to continue as a going concern. The financial statements do not include the adjustments that would result if the Group or Company was unable to continue as a going concern.

Opinion on other matters prescribed by the Companies Act 2006

In our opinion the information given in the Directors' Report for the financial year for which the financial statements are prepared is consistent with the financial statements.

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- > adequate accounting records have not been kept by the parent company, or returns adequate for our audit have not been received from branches not visited by us; or
- > the parent company financial statements are not in agreement with the accounting records and returns; or
- > certain disclosures of directors' remuneration specified by law are not made; or
- > we have not received all the information and explanations we require for our audit.

NOTES TO THE FINANCIAL STATEMENTS

1. GOING CONCERN BASIS

The Group has recorded a loss of £314,026 in the current financial year ended 31st March 2012. In reviewing the going concern and future cash flows for the next 12 months from the date of the signing of these accounts, the management have made the following material assumptions.

a) *Receivable from sale of Mozambique*

The Group expects to recover by legal means the balance of US\$1.9 million receivable from the group's sale of its *Jatropha* operations in Mozambique.

b) *Dnipro Cargo terminal income and receivable*

Due to force majeure, the Group did not receive any income during the year ended 31 March 2012 from its management of the Dnipro Cargo terminal. The Group expects the terminal to commence normal activity and hence provide the management income and repay a debt of £219,367 repayable to the Company since 1 February 2010.

c) *Cash flows*

After making enquiries, reviewing forecast cash flows and considering the uncertainties described above, the Directors have formed a judgment, at the time of approving these financial statements, that there is a reasonable expectation that the Group and Company can access adequate resources to continue in operational existence for the foreseeable future. For these reasons, the Directors continue to adopt the going concern basis in preparing the financial statements.

The financial statements do not include adjustments that would result if the Group or the Company was unable to continue as a going concern as it is not practicable to determine or quantify them.

2. GENERAL INFORMATION

ESV GROUP Plc (the 'Company'), is incorporated and domiciled in the United Kingdom. The address of the registered office is 3rd Floor, 19/20 Grosvenor Street, London, W1K 4QH.

The nature of the Group's operations and its principal activity is port operations and development and grain trading in the Ukraine.

3a) ADOPTION OF NEW AND REVISED STANDARDS

These financial statements have been prepared in accordance with EU Endorsed International Financial Reporting Standards ('IFRS') and the Companies Act 2006 applicable to companies reporting under IFRS. The financial statements have been drawn up on the basis of accounting policies consistent with those applied in the financial statements for the year to 31 March 2011.

In the current year the following new and revised Standards have been adopted. The adoption of these standards, interpretations and amendments did not affect the Company's results or operations or financial position.

3b) SIGNIFICANT ACCOUNTING POLICIES

Basis of preparation

The financial statements have been prepared in accordance with International Financial Reporting Standards ('IFRSs') as issued by the International Accounting Standards Board ('IASB') and as adopted by the European Union ('EU').

The Group financial information is presented in Pounds Sterling ("£"). Foreign operations are included in accordance with the policies set out below.

As permitted by section 408 of the Companies Act 2006, the Company has elected not to present its income statement for the year. The Company reported a loss for the financial year ended 31 March 2012 of £314,026 (2011: £458,630).

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company (its subsidiaries) made up to 31 March each year. Control is achieved where the Company has the power to govern the financial and operating policies of an investee entity so as to obtain benefits from its activities.

The results of subsidiaries acquired or disposed of during the year are included in the consolidated income statement from the effective date of acquisition or up to the effective date of disposal, as appropriate. Where necessary, adjustments are made to the financial statements of subsidiaries to bring accounting policies used into line with those used by the Group. All intra-group transactions, balances, income and expenses are eliminated on consolidation.

Segmental reporting

Operating segments are reported in a manner consistent with the internal reporting provided

to the chief operating decision-maker. The chief operating decision-maker has been identified as the Board of Directors.

Foreign currencies

The individual financial statements of each group company are presented in the currency of the primary economic environment in which it operates (its functional currency).

For the purpose of the consolidated financial statements, the results and financial position of each Group company are expressed in £, which is the functional currency of the Company, and the presentation currency for the consolidated financial statements.

In preparing the financial statements of the individual companies, transactions in currencies other than the functional currency of each Group company ('foreign currencies') are recorded in the functional currency at the rates of exchange prevailing on the dates of the transactions. At each balance sheet date, monetary assets and liabilities that are denominated in foreign currencies are retranslated into the functional currency at the rates prevailing on the balance sheet date. Non-monetary assets and liabilities carried at fair value that are denominated in foreign currencies are translated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences are recognised in the income statement in the period in which they arise except for exchange differences on monetary items receivable from or payable to a foreign operation for which settlement is neither planned nor likely to occur, which form part of the net investment in a foreign operation, and which are recognised in the foreign currency translation reserve and recognised in the income statement on disposal of the net investment.

For the purpose of presenting consolidated financial statements, the assets and liabilities of the Group's foreign operations are translated at exchange rates prevailing on the balance sheet date. Income and expense items are translated at the average exchange rates for the period, unless exchange rates fluctuate significantly during that period, in which case the exchange rates at the date of transactions are used. Exchange differences arising, if any, are classified as equity and transferred to the Group's translation reserve. Such translation differences are recognised as income or as expenses in the period in which the operation is disposed of.

Taxation

The tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the income statement because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the tax profit nor the accounting profit.

NOTES TO THE FINANCIAL STATEMENTS (CONT'D)

3b) SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries and associates, and interests in joint ventures, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised. Deferred tax is charged or credited in the income statement, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

Property, plant and equipment

Property, plant and equipment ('PP&E') are carried at cost less accumulated depreciation and any recognised impairment loss.

Depreciation and amortisation is charged so as to write off the cost or valuation of assets over their estimated useful lives, using the straight-line method, on the following bases:

Office equipment	20%
------------------	-----

The gain or loss arising on the disposal or retirement of an asset is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in income.

Related party transactions

IAS 24, 'Related Party Disclosures', requires the disclosure of the details of transactions between the reporting entity and related parties. In the consolidated financial statements, all transactions between Group companies are eliminated.

Financial instruments

Financial assets

Initial recognition and measurement

All financial assets are initially recorded at fair value and designated upon inception into one of the following four financial categories: held to maturity, available for sale, loans and receivables or fair value through profit or loss ("FVTPL"). All financial assets are recognised initially at fair value plus transaction costs, except in the case of financial assets recorded at fair value through profit or loss.

Subsequent measurement

The subsequent measurement of financial assets depends on their classification as described below:

- Financial assets at fair value through profit or loss include financial assets held for trading and financial assets designated upon initial recognition at fair value through profit or loss.
- Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market.
- Held- to-maturity investments are non- derivative financial assets with fixed or determinable

payments or fixed maturities that the Company has the positive intention and ability to hold them to maturity.

- Equity investments classified as available-for-sale are those that are neither classified as held for trading nor designated at fair value through profit or loss.

Financial assets classified as FVTPL are initially recognised at fair value, being the consideration given including, where appropriate, acquisition costs associated with the investment. Such investments are subsequently carried at fair value with unrealised gains and losses recognised through profit and loss.

Financial assets classified as loans and receivables and held to maturity are measured at amortised cost using the effective interest method less any allowances for impairment.

Financial assets classified as available for sale are measured at fair value with unrealised gains and losses recognised in other comprehensive income (loss) except for losses in value that are considered other than temporary or a significant or prolonged decline in the fair value of that investment below its cost.

Transaction costs associated with FVTPL financial assets are expensed as incurred, while transaction costs associated with all other financial assets are included in the initial carrying amount of the asset.

Financial liabilities

Initial recognition and measurement

All financial liabilities are initially recorded at fair value and designated upon inception as FVTPL, loans and borrowings or as derivatives designated as hedging instruments in an effective hedge, or as appropriate.

All financial liabilities are initially recognised at fair value, plus, in the case of loans and borrowings, directly attributable transaction costs.

Subsequent measurement

After initial recognition, loans and borrowings are subsequently measured at amortised cost using the effective interest method. The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the interest rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or, where appropriate, a shorter period.

Financial liabilities classified as FVTPL include financial liabilities held for trading and financial liabilities designated upon initial recognition as FVTPL. Transaction costs on financial liabilities classified as FVTPL are expensed as incurred. Fair value changes on financial liabilities classified as FVTPL are recognised through the statement of comprehensive income.

At the end of each reporting period subsequent to initial recognition, financial liabilities at FVTPL are measured at fair value, with changes in fair value recognised directly in comprehensive income in the period in which they arise. The net gain or loss recognised in comprehensive income excludes any interest paid on the financial liabilities.

Impairment of financial assets

The company assesses at the end of each reporting period whether a financial asset is impaired.

Assets amortised at cost

If there is objective evidence that an impairment loss on assets carried at amortised cost

NOTES TO THE FINANCIAL STATEMENTS (CONT'D)

3b) SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

has been incurred, the amount of the loss is measured as the difference between the assets' carrying amount and the present value of estimated future cash flows discounted at the financial assets' original effective interest rate. The carrying amount of the asset is then reduced by the amount of the impairment. The amount of the loss is recognised in comprehensive income. If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed to the extent that the carrying value of the asset does not exceed what the amortised cost would have been had the impairment not been recognised. Any subsequent reversal of an impairment loss is recognised in comprehensive income.

In relation to trade and other receivables a provision for impairment is made and an impairment loss is recognised in profit and loss when there is objective evidence (such as the probability of insolvency or significant financial difficulties of the debtor) that the Company will not be able to collect all of the amounts due.

Available for sale

If an available for sale asset is impaired, an amount comprising the difference between its cost and its current fair value, less any impairment loss previously recognised in comprehensive income, is transferred from equity to comprehensive income. In the case of equity investments, objective evidence would include a significant or prolonged decline in the fair value of the investment below its cost. Reversals in respect of equity instruments classified as available-for-sale are not recognised in comprehensive income.

De-recognition of financial assets and liabilities

A financial asset (or, where applicable a part of a financial asset) is derecognised when:

- The right to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party and either (a) the Company has transferred substantially all the risks and rewards of the asset, or, (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires.

Trade and other receivables

Trade and other receivables are measured on initial recognition at fair value, and are subsequently measured at amortised cost less any provision for impairment.

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and demand deposits, and other short-term highly liquid investments that are readily convertible to a known amount of cash with three months or less remaining to maturity and are subject to an insignificant risk of changes in value.

Trade and other payables

Trade and other payables are initially measured at fair value, and are subsequently measured at amortised cost, using the effective interest rate method.

Provisions

Provisions are recognised when the Group has a legal or constructive obligation, as a result

of past events, for which it is probable that an outflow of economic resource will result and that outflow can be reliably measured.

Share capital

Financial instruments issued by the Group are treated as equity only to the extent that they do not meet the definition of a financial liability. The Group's ordinary shares are classified as equity instruments.

For the purposes of the disclosures given in note 16, the Group considers its capital to be total equity. There have been no changes in what the Group considers to be capital since the previous period.

The Group is not subject to any externally imposed capital requirements.

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which are described in note 3, the Directors are required to make judgements, estimates and assumptions about the carrying amounts of the assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both the current and future periods.

The following are the critical judgements and estimations that the Directors have made in the process of applying the Group's accounting policies and that have the most significant effect on the amounts recognised in the financial statements:

Recoverability of Mozambique debtor

The balance of US\$1.9 million receivable from the Group's sale of its Jatropha plantation was contingent upon the issuance of the Jatropha farming rights for the second plantation area by 9 May 2011. The parties who purchased the plantation from the Group did not cooperate in this matter and the Group is seeking legal advice for its recovery. The Directors assume that the full amount will be recovered and so no impairment has been provided on this amount.

Ukraine agri-logistics

Ukraine's grain exports in the period under review decreased as the country implemented export quotas. The Directors assume that with the lifting of the ban, trading conditions will normalise quickly and trading will return to previous levels.

NOTES TO THE FINANCIAL STATEMENTS (CONT'D)

5. SEGMENTAL REPORTING

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments and making strategic decisions, has been identified as the Board of Directors.

The Group has the following reportable segments:

- Ukraine – this segment is involved in grain trading and agri- logistics
- Head office – this segment is the head office of the Group, located in the United Kingdom.
- Mozambique – this segment was involved in Bio- fuel farming.

10 LOSS PER ORDINARY SHARE

Basic loss per ordinary share is calculated by dividing the consolidated loss for the year attributable to ordinary equity holders of the parent company by the weighted average number of ordinary shares outstanding during the year. The calculation of the basic and diluted loss per share is based on the following data:

	2012 £	2011 £
Losses		
Loss for the purposes of basic loss per share being consolidated net loss attributable to equity holders of the parent company	314,026	468,630

At the balance sheet date there were 558,814 (2011: 558,814) potentially dilutive Ordinary Shares relating to warrants for directors, staff and consultants for which contracts have not been issued. In the current and prior year these warrants are anti dilutive and therefore diluted loss per share has not been calculated. The exercise price of these warrants is 5 pence per share, and the exercise period is up to 21 August 2014.

	2012 £	2011 £
Available for sale financial asset	<u>1,188,244</u>	<u>1,184,982</u>

The available for sale financial asset relates to the contingent consideration of \$1.9m receivable from the disposal of Jatropha plantations in 2010; that is contingent upon the issuance of farming rights. The Company has started legal proceedings in Mozambique.

Cash and cash equivalents

The Group's net overdraft as at 31 March 2012 of £25,187 (2011: £23,314) comprise cash in hand and bank overdraft.

The Company's cash and cash equivalents as at 31 March 2012 of £1,586 (2011: £1,070) comprise cash at bank and in hand.

The Directors consider that the carrying amount of these assets approximates their fair value.

14. DEFERRED TAX

Differences between IFRS and statutory tax rules (in the United Kingdom and elsewhere) give rise to temporary differences between the carrying values of certain assets and liabilities for financial reporting purposes and for income tax purposes.

At 31 March 2012, the Group has unrecognised deferred tax assets of £nil (2011: £nil) in respect of UK and overseas tax losses. No deferred tax asset has been recognised in respect of this amount due to the unpredictability of future profit streams.

At 31 March 2012, The Company has unrecognised deferred tax assets of £nil (2011: £nil) in respect of UK tax losses. No deferred tax asset has been recognised in respect of this amount due to the unpredictability of future profit streams.

NOTES TO THE FINANCIAL STATEMENTS (CONT'D)

Fair value of financial assets and liabilities

Fair value is the amount at which a financial instrument could be exchanged in an arm's length transaction between informed and willing parties, other than a forced or liquidation sale and excludes accrued interest. Where available, market values have been used to determine fair values.

Financial risk management objectives

Management provides services to the business, co-ordinates access to domestic and international financial markets, monitors and manages the financial risks relating to the operations of the Group through internal risks reports through which it analyses exposures by degree and magnitude of risk. These risks include foreign currency risk, credit risk, liquidity risk and cash flow interest rate risk.

The Group does not enter into or trade financial instruments, including derivative financial instruments, for speculative purposes.

As the Group has no committed borrowings, the Group is not exposed to any risks associated with fluctuations in interest rates on loans. Fluctuation in interest rates applied to cash balances held at the 2012 balance sheet date would have minimal impact on the Group.

Foreign exchange risk and foreign currency risk management

The Group undertakes certain transactions denominated in foreign currencies. Hence, exposures to exchange rate fluctuations arise.

The Group to date has elected not to hedge its exposure to the risk of changes in foreign currency exchange rates.

The only significant non functional currency balances as at 31 March 2012 and 31 March 2011 were (1) US\$1.9 m available for sale asset, which is receivable by the Company for the sale of its Mozambican operations, (2) US\$250,000 payable to Inveragro on receipt of the US\$1.9 m, and (3) Euro 297,503 payable in respect of liabilities relating to activities in Belgium and the Netherlands (now ceased).

The carrying amounts of these foreign currency denominated financial assets and liabilities at the reporting date were as follows:

	2012	2011
	£	£
US dollar denominated assets	1,188,244	1,184,982
US dollar denominated liabilities	(156,348)	(155,918)
Euro denominated liabilities	(248,209)	(261,633)
Net exposure	<u>783,687</u>	<u>767,431</u>

Foreign currency sensitivity analysis

The Group is exposed primarily to movements in GBP against the US dollar. Sensitivity analyses have been performed to indicate how the profit or loss would have been affected by changes in the exchange rate between the US dollar and GBP. The analysis is based on a weakening and strengthening of the US dollar by 10 per cent against the GBP in which the Group has assets and liabilities at the end of each respective period. A movement of 10 per cent reflects a reasonably possible sensitivity when compared to historical movements over a three to five year timeframe. The sensitivity analysis includes only outstanding foreign

currency denominated monetary items and adjusts their translation at the period end for a ten per cent change in foreign currency rates.

A positive number below indicates an increase in profit where US dollar strengthens ten per cent against the GBP. For a ten per cent weakening of the US dollar against the GBP, there would be an equal and opposite impact on the profit, and the balance below would be negative.

The following table details the Group's sensitivity to a ten per cent strengthening in the US dollar against the GBP.

	2012	2011
	£	£
Increase in income statement and net assets	<u>114,654</u>	<u>102,906</u>

Credit risk management

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Group. The Group does not have any significant credit risk exposure on trade receivables.

The Group makes allowances for impairment of receivables where there is an identified event which, based on previous experience, is evidence of a reduction in the recoverability of cash flows.

The credit risk on liquid funds (cash) is considered to be limited because the counterparties are financial institutions with high credit ratings assigned by international credit-rating agencies.

The carrying amount of financial assets recorded in the financial statements represents the Group's maximum exposure to credit risk.

Liquidity risk management

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due.

The Group aims to maintain appropriate cash balances in order to meet its liabilities as they fall due.

As disclosed in note 1, the Group is reliant on raising further funding in order to be able to meet its current obligations.

NOTICE OF ANNUAL GENERAL MEETING

Notice is hereby given that the Annual General Meeting of the Company will be held at 11:30 a.m. on 28 September 2012 at the offices of Keith Bayley Rogers & Co Ltd, Finsbury Tower, 103-105 Bunhill Road, London EC1Y 8LZ for the following purpose:

Ordinary Business

To consider and if thought fit, to pass the following resolutions each of which will be proposed as an Ordinary Resolution:

1. To receive the Company's annual accounts for the financial year ended 31 March 2012 together with the directors' report and auditors' report on those accounts.
2. To re-appoint W H Associates LLP as Auditors to hold office from the conclusion of the meeting to the conclusion of the next meeting at which the accounts are laid before the Company and to authorise the Directors to agree their remuneration.

Special Business

To consider and, if thought fit, pass Resolution 3, which will be proposed as Ordinary Resolution, and Resolution 4 which will be proposed as a Special Resolution:

3. That, in accordance with section 551 of the Companies Act 2006 (the "2006 Act") the Directors of the Company be and are generally and unconditionally authorised to allot Relevant Securities (as defined in the notes to this resolution):
 - 3.1 comprising equity securities (as defined by section 560 of the 2006 Act) up to an aggregate nominal value of £10 million (such amount to be reduced by the nominal amount of any Relevant Securities allotted under paragraph 3.2 below) in connection with an offer by way of a rights issue:
 - (a) to holders of ordinary shares in proportion (as nearly as may be practicable) to their respective holdings; and
 - (b) to holders of other equity securities as required by the rights of those securities or as the Directors otherwise consider necessary, but subject to such exclusion or other arrangements as the Board may deem necessary or expedient in relation to treasury shares, fractional entitlements, record dates, legal or practical problems in or under the laws of any territory or the requirements of any regulatory body or stock exchange; and
 - 3.2 in any other case, up to an aggregate nominal value of £10 million (such amount to be reduced by the nominal amount of any equity securities allotted under paragraph 3.1 above in excess of £10 million), provided that these authorities, unless duly renewed, varied or revoked by the Company, expire on the date being fifteen months from the date of the passing of this resolution or, if earlier, the conclusion of the next annual general meeting of the Company to be held after the passing of this resolution, save that the Company may, before such expiry, make offers or agreements which would or might require Relevant Securities to be allotted after such expiry and, the Directors may allot Relevant Securities in pursuance of such an

offer or agreement notwithstanding that the authority conferred by this resolution has expired.

4. That, subject to the passing of Resolution 3, the Directors be given the general power to allot equity securities (as defined by section 560 of the 2006 Act) for cash, either pursuant to the authority conferred by Resolution 3 or by way of a sale of treasury shares, as if section 561(1) of the 2006 Act did not apply to any such allotment, provided that this power shall be limited to:

4.1 the allotment of equity securities in connection with an offer by way of a rights issue:

(a) to holders of ordinary shares in proportion (as nearly as may be practicable) to their respective holdings; and

(b) to holders of other equity securities as required by the rights of those securities or as the Directors otherwise consider necessary,

but subject to such exclusion or other arrangements as the Board may deem necessary or expedient in relation to treasury shares, fractional entitlements, records dates, legal or practical problems in or under the laws of any territory or the requirements of any regulatory body or stock exchange; and

4.2 the allotment (otherwise than pursuant to paragraph 4.1 above) of equity securities up to an aggregate nominal amount of £10 million.

The power granted by this resolution will expire on the date being fifteen months from the date of the passing of this resolution or, if earlier, the conclusion of the next annual general meeting of the Company to be held after the passing of this resolution (unless renewed, varied or revoked by the Company prior to or on such date), save that the Company may, before such expiry, make offers or agreements which would or might require equity securities to be allotted after such expiry and, the Directors may allot equity securities in pursuance of such an offer or agreement notwithstanding that the authority conferred by this resolution has expired.

Notes to the Notice of Annual General Meeting**Entitlement to attend and vote**

1. Pursuant to Regulation 41 of the Uncertificated Securities Regulations 2001, the Company specifies that only those members registered on the Company's register of members at:
 - 6 p.m. on 26 September 2012; or,
 - if this Meeting is adjourned, at 6 p.m. on the day two days prior to the adjourned meeting shall be entitled to attend and vote at the Meeting.

Appointment of proxies

2. If you are a member of the Company at the time set out in note 1 above, you are entitled to appoint a proxy to exercise all or any of your rights to attend, speak and vote at the Meeting and you should have received a proxy form with this notice of meeting. You can only appoint a proxy using the procedures set out in these notes and the notes to the proxy form.
3. A proxy does not need to be a member of the Company but must attend the Meeting to represent you. Details of how to appoint the Chairman of the Meeting or another person as your proxy using the proxy form are set out in the notes to the proxy form. If you wish your proxy to speak on your behalf at the Meeting you will need to appoint your own choice of proxy (not the Chairman) and give your instructions directly to them.
4. You may appoint more than one proxy provided each proxy is appointed to exercise rights attached to different shares. You may not appoint more than one proxy to exercise rights attached to any one share. To appoint more than one proxy please refer to the notes on the Form of Proxy.

Appointment of proxy using hard copy proxy form

5. The notes to the proxy form explain how to direct your proxy how to vote on each resolution or withhold their vote.

To appoint a proxy using the proxy form, the form must be:

- completed and signed;
- sent or delivered to Neville Registrars Limited, Neville House, 18 Laurel Lane, Halesowen, West Midlands B63 3DA; and
- received by Neville Registrars no later than 11.30 a.m. on 26 September 2012.
- or sent by facsimile transmission to 0121 585 1132 no later than 48 hours before the General Meeting i.e. by 11.30 a.m. on 26 September 2012. If the appointment of proxy is notified by facsimile transmission, the original appointment in the same form as received by facsimile transmission should be deposited at the place at which the facsimile transmission was received, or the Registered office of the Company, not less than 24 hours before the time appointed for the Meeting or adjourned meeting or the holding of a poll subsequently at which the vote is to be used

In the case of a member which is a company, the proxy form must be executed under its common seal or signed on its behalf by an officer of the company or an attorney for the company.

Any power of attorney or any other authority under which the proxy form is signed (or a duly certified copy of such power or authority) must be included with the proxy form.

Appointment of proxy by joint members

6. In the case of joint holders, where more than one of the joint holders purports to appoint a proxy, only the appointment submitted by the most senior holder will be accepted. Seniority is determined by the order in which the names of the joint holders appear in the Company's register of members in respect of the joint holding (the first-named being the most senior).

Changing proxy instructions

7. To change your proxy instructions simply submit a new proxy appointment using the methods set out above. Note that the cut-off time for receipt of proxy appointments (see above) also apply in relation to amended instructions; any amended proxy appointment received after the relevant cut-off time will be disregarded.

Where you have appointed a proxy using the hard-copy proxy form and would like to change the instructions using another hard-copy proxy form, please contact Neville Registrars Limited,

Neville House, 18 Laurel Lane, Halesowen, West Midlands B63 3DA.

If you submit more than one valid proxy appointment, the appointment received last before the latest time for the receipt of proxies will take precedence.

Termination of proxy appointments

8. In order to revoke a proxy instruction you will need to inform the Company using the following method:

By sending a signed hard copy notice clearly stating your intention to revoke your proxy appointment to Neville Registrars Limited, Neville House, 18 Laurel Lane, Halesowen, West Midlands B63 3DA

In the case of a member which is a company, the revocation notice must be executed under its common seal or signed on its behalf by an officer of the company or an attorney for the company. Any power of attorney or any other authority under which the revocation notice is signed (or a duly certified copy of such power or authority) must be included with the revocation notice.

In either case, the revocation notice must be received by Neville Registrars Limited, Neville House, 18 Laurel Lane, Halesowen, West Midlands B63 3DA no later than 12 noon on 28 September 2012.

If you attempt to revoke your proxy appointment but the revocation is received after the time specified then, subject to the paragraph directly below, your proxy appointment will remain valid.

Appointment of a proxy does not preclude you from attending the Meeting and voting in person. If you have appointed a proxy and attend the Meeting in person, your proxy appointment will automatically be terminated.

Issued shares and total voting rights

9. As at 11.30 a.m. on 31 August 2012, the Company's issued share capital comprised 7,141,232 ordinary shares of £0.023 each. Each ordinary share carries the right to one vote at a general meeting of the Company and, therefore, the total number of voting rights in the Company as at 11.30 a.m. on 31 August 2012 is 7,141,232.

Notes to Resolution 3

In Resolution 3 "Relevant Securities" means:

- Shares in the Company other than shares allotted pursuant to:
 - an employee share scheme (as defined by section 1166 of the 2006 Act);
 - a right to subscribe for shares in the Company where the grant of the right itself constituted a Relevant Security; or
 - a right to convert securities into shares in the Company where the grant of the right itself constituted a Relevant Security.
- Any right to subscribe for or to convert any security into shares in the Company other than rights to subscribe for or convert any security into shares allotted pursuant to an employee share scheme (as defined by section 1166 of the 2006 Act). References to the allotment of Relevant Securities in the resolution include the grant of such rights.
